**Good News!** These family members will keep their DSHS medical coverage:

Family Members Listed Here

The family members listed above are still eligible for DSHS Medical Assistance! They can ignore the Basic Health information and application mailed in June.

What happened, why the change? Our records show the family members listed above have been or will be in the U.S. for 5 years by October 31, 2002. That means they are eligible for DSHS Medical Assistance. Their medical coverage stays the same -- and, they will continue to receive their green and white medical ID card (coupon) each month.
